

The image contains technical drawings and photographs. At the top, there are two cross-sectional diagrams of a motor's lower cover. The left diagram shows a cover with two air outlets labeled 'K'. The right diagram shows a cover with a central air outlet labeled 'K'. To the right of these diagrams is a legend:

- ✓ Kühlung
- W Wasserstrahl
- U Umlenblech
- A Abdeckblech

Below the diagrams is a photograph showing three different cover designs. The first shows a water jet 'W' hitting the cover. The second shows a cover with a deflector 'U' and a water jet 'W'. The third shows a cover with a deflector 'U', a cover plate 'A', and a water jet 'W'. Below the photograph is the caption:

Abdeckungen für Kühlluftöffnungen

At the bottom of the slide, there are three boxes:

- SIEMENS 1938
- Schwallwasserschutz bei Elektromotoren untere Abdeckung
- GL 420391
